

## Custom 1" Wood Blind

Model #WOOD1

The designer's choice for elegant, traditional window treatments.

### KEY FEATURES:

- **Finest premium kiln-dried hardwood construction**
- **Matching valance, bottomrail, wand, and tassel**
- **One year warranty**

### PRODUCT OVERVIEW

Levolor Custom 1" Wood Blinds create a soft casual look while adding natural warmth to any setting. Committed to both durability and aesthetics, the Levolor Custom 1" Wood Blind combines the highest quality components with visibly attractive features to provide an overall superior product.

Levolor Custom 1" Wood Blinds are made from the finest kiln-dried premium quality hardwood. Furniture quality wood finishes are available in two surface textures and a palette of more than 15 paints and stains ranging from contemporary light to rich, traditional dark tones. The standard finish is sanded smooth on all surfaces resulting in a quality blind free of chips, cracks and sawmarks.

Levolor wood blinds use a proven, high quality headrail system made of roll-formed corrosion-resistant Tomized steel. The metal headrail and precision quality components provide superior support for the additional weight demands imposed by wood blinds. The Tomized steel drums and cradles insure accurate alignment of moving parts, smooth and maintenance-free operation.

Valance returns have a precise mitered joint secured with an easy-to-assemble return clip. The premium hardwood slats, bottomrails, and styled valance are color coordinated with cords, ladders, wands and tassels to provide an elegant wood window covering.
